

Lutherville Lab Grade 5 Ballroom Dance Program March 9-13, 2020

5th Grade Ballroom Program Information

The 5th Grade Ballroom Program is coming to Lutherville Lab next week. Abigail Stone, a professional dancer and dance instructor will be teaching our students next week. The program not only teaches students about the dance forms, their origins, and provides practical experience in social/partner dance, but emphasizes dance etiquette and decorum, both valuable character education components.

The students will attend the program everyday next week. **On Friday March 13th, family members are invited to our final dance celebration from 9:35am-10:25am in the gymnasium. All guests should sign-in at the front office before entering the gym. Students should wear pants, or a dress/skirt and a collared shirt, dress shirt (tie optional), or blouse. Students should not wear high heels. This affects grip and can be difficult to dance.**

Thanks to the Lutherville Lab PTA for sponsoring this event.

A typical week provides the following ballroom lesson progressions:

Day 1 – Merengue

Day 2 – Tango

Day 3 – Swing

Day 4 – Cha-Cha

Day 5 – Family invitation and dress up performance
