K-12 schools can have in-person learning with limited in-school COVID-19 spread

17 K-12 schools in rural Wisconsin opened and implemented measures to limit spread:

-  Used masks
-  Established groups of 11-20 students
-  Staff maintained 6 feet of distance, if possible
-  Quarantined after exposures

Teachers reported more than 92% of students used masks

During 13 weeks of in-person learning

7 of 4,876 students and

0 of 654 staff

are known to have gotten COVID-19 at school

No spread is known to have occurred to or from staff in school despite some times with high community spread*

* Weekly incidence of 34 to 1,189 per 100,000 persons in the community; 7-40% positive COVID-19 tests
